

LHD Cable Accessory - Silicone Sleeve (ACA-RS) Alarmline II Series

Overview

The ACA-RS series silicone sleeves are designed to protect linear heat sensor cable against mechanical damage from the tie wrap used when the cable is secured. The ACA-RS is a split sleeve used to protect the sensor cable from being crushed or damaged when attached to fixing clips or brackets. It acts as an insulator to prevent the transfer of heat through these metal clips or brackets to the LHD cable, and is fire resistant.

Standard Features

- Protection of liner heat cable against mechanical damage
- For use with any LHD fastening brackets or clips
- Fire resistant
- Available in quantities of 25 or 100
