

Retractable Cable Collector

Alarmline II Series

Overview

The Retractable Cable Collector is specifically designed to be fixed to a floating roof for collecting retractable cables.

It rises and falls with movement of the roof, uncoiling the cable as the roof lowers, and collecting the cable again as the roof rises.

The Retractable Cable Collector is supplied with drainage holes.

Standard Features

- Simplifies electrical connections of floating roof tanks
- Collects and releases coiled cable in moving installations
